

# SOCKET SENSE®

Premium Surge Protectors That Finally Make Sense

- Expands to fit all power adapters
- Angled outlets save space
- Thin design hugs walls and narrow spaces
- Recessed switch prevents accidental power-off
- Saves money by doing the job of two surge strips
- Up to 2160 Joules of surge protection
- Lifetime Warranty

Socket Sense® handles all power adapters with ease. Simply expand or contract the movable sockets to adjust for the best fit. Compare this to an ordinary surge strip that allows oversized power adapters to block the adjacent sockets.

Socket Sense®

Ordinary surge strip

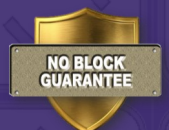

### The Socket Sense Advantage

- ✔ Outlets are never blocked by oversized adapters as experienced with ordinary surge strips
- ✔ Every outlet can be a “wide spaced” outlet instead of just one or two provided on ordinary surge strips.
- ✔ Never need to re-arrange power adapters to find the “best fit”.
- ✔ Provides a cleaner, more organized solution to cable management.
- ✔ Guaranteed to never have a blocked outlet.

### Models to fit all budgets

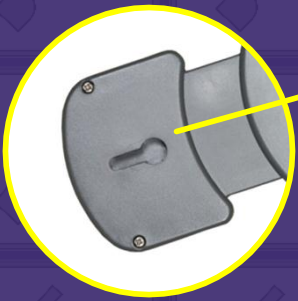

Model	Joules	Cord	MSRP
SS1630A-03	1080	3ft	\$19.99
SS1650W-03	2160	3ft	\$24.99
SS1650W-06	2160	6ft	\$29.99
SS1650W-12	2160	12ft	\$34.99

# SOCKET SENSE®

Premium Surge Protectors That Finally Make Sense

**Keyhole Slots**  
Makes hanging easy on a wall or desk.

**Surge Protection**  
Up to 2160 joules of protection to help absorb power spikes.

**Cable Organizer**  
Sockets may be adjusted to form cable management channels to reduce clutter.

**Adjustable Sockets**  
The sockets expand or contract as required to fit all power adapters.

**Status LEDs**  
Red and Green LEDs provide status of surge and ground.

**Resettable 15 Amp Breaker**  
Recessed power switch with circuit breaker.

	SS1630A-03	SS1650W-03	SS1650W-06	SS1650W-12
Cord Length (Feet)	3 ft	3 ft	6 ft	12 ft
Outlets	6	6	6	6
Dimensions	13 x 2.25 x 2.25 in. (expandable to 18 in.)			
Weight	1.6 lbs	1.6 lbs	1.9 lbs	2.5 lbs
Connected Equipment Warranty	\$50,000	\$75,000		
Electrical Rating	120VAC, 15AMP, 60Hz, 1800 Watts			
Surge Rating (Joules)	1080	2160		
Max Spike Voltage (Volts)	6,000			
Max Spike Current (Amps)	72,000	144,000		
Clamping Voltage (UL 1449 Rev 3)	L-N 400V	L-G 400V	N-G 400V	L-N 330V
Suppression Response Time	<1 Nanosecond			
EMI/RFI Noise Reduction	150KHz - 100MHz, up to 40 dB
